Filed October 29, 2003 : Examiner

For Personal Care Composition Containing A Detergent Surfactant, An Antidandruff
Component, and Ketoamide Surfactants

STATUS INQUIRY

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This application was filed on October 29, 2003, and the return postcard with assigned serial number was received (copy attached). To date no further correspondence, including the Filing Receipt, has been received from the Patent Office.

During a phone call to the Filing Receipts and Corrections-Patents department in February, Mr. Preston Wallace checked two of our filings, one of which being the above-identified application, between the months of July 2003 and November 2003. Mr. Wallace found that the records contained incomplete data and explained that the files were probably waiting to be scanned into IMAGE.

Applicants have periodically checked Private Pair over the past several months. Upon searching for the serial number, the message that "the serial number may have been typed incorrectly or assigned to an application that is not yet available for public inspection" is received. Upon searching for the attorney docket number, 12 records appear, all of which were filed between 1985 and 1999, and all of which have issued as US patents.

In accordance with MPEP 203.08, Applicants inquire as to the status of this application. With the date of the filing of this filing now past eight months, Applicants respectfully request a search be done for the above-identified application.

Respectfully submitted,

By Laura L. Frieko
